Dear Mr. Sanders,

This is to acknowledge receipt of your email to the Public Service Commission of South Carolina. I am forwarding your email to our Clerk's Office for processing. Your email will become a part of Docket No. 2013-59-E and will be posted on our website under this docket.

Please let me know if you should require any additional information.

Sincerely,

Deborah Easterling  
Administrative Assistant

**Subject:** Duke Power

Good Morning,

I just want to advise the Public Commission that Duke Power does not need to increase Rates. The last several years they have went out and bought Power Companies across the Country. If they would manage their Business like other Bussiness do they would not need a increase.They are like Welfare always wanting something for nothing. Bottom line is Duke Power is poorly Managed. I am retired and have a lots of Medication to buy. I can not afford a 13.3 Percent increase. Give Duke Power the same increase Social Security gives senior Citicens that will teach Duke Power to manage their spending like people on Social Security has to do. It is a waste of State Money for you to go around the State to listen to peoples Complaints about a Rate increase for Duke Power if you are going to give it to them anyway. I tell you people in North Caolina and South Carolina are fed up with Duke Power always wanting Rate increases. Hope you will put some sound JUSDement in your decision to give Duke Power a Rate increase. Send them a message and tell them they need Better managment in the Company.

James Sanders  
Anderson
